

PROFILE

Generalist builder who ships end-to-end: grew short-form content to **10M+ views in 4 months**, built and deployed a live production web app for a legal tech startup, and shipped AI automation systems using Retell AI, n8n, and HubSpot. Currently building Airlock, a consumer iOS focus app for creators, now in **public beta**. Looking to embed with an early-stage team that needs a fast, full-stack builder rather than a narrow specialist.

EXPERIENCE

- **SecureSplit** Remote
Generalist Engineer (Product + Automation) Dec 2025 – Present
 - **Shipped a live production web app:** Designed, built, and deployed **SecureSplit Essentials** (essentials.securesplit.com) solo end-to-end using Next.js, Neon DB, and Vercel, taken from a blank repo to a live production app.
 - **Built an AI outbound automation system:** Automated **1,000+** lead scraping and enrichment and built an AI cold-calling pipeline (Retell AI, n8n, HubSpot) with prompt-chained conversations and A/B-tested scripts, cutting manual outbound work.
 - **Built prospect intelligence tooling:** Delivered structured, enriched prospect data directly into Google Sheets via the **OpenAI API**, letting the sales team prioritize outbound leads without manual input.
- **Freelance UGC Creator** Remote
Content Creator Jan 2026 – Present
 - **Delivered results for brand clients:** Generated **500K+ views** for consumer brands producing conversion-focused short-form UGC, iterating on hooks and CTAs daily.
 - **Monetized freelance work:** Generated **\$2,300+ in the first month** as an independent UGC creator, working directly with brands on messaging and creative.
- **Independent Reselling Venture** Christiansburg, VA
Founder & Operator April 2025 – Present
 - **Revenue ownership:** Generated **\$10,000+ revenue** and **\$5,000+ profit** in under **6 months** across **50+ products**, building custom tooling to automate inventory and margin tracking.
- **Radical AI** New York, NY (Remote)
AI Engineer Intern May 2024 – Aug 2024
 - **Shipped AI products:** Built and deployed AI-powered quiz and syllabus generators (Python, Gemini API, Streamlit, Docker) used by **100+ educators**, reducing prep time by **50%+**.

PROJECTS

- **Personal Brand - Short-Form Content** | @rajderangula_
Built a personal content brand from scratch to **10M+ views across platforms in 4 months** with no paid promotion, using it to market Airlock directly to its target audience.
- **Airlock - Consumer iOS Focus App (Swift, Live Activities)** | getairlock.app
Solo-built and shipped an iOS focus app that prompts a mission brief before opening social apps and displays it persistently via Dynamic Island Live Activities, a gap existing app blockers don't cover. Currently in **public beta**.
- **ProfitPilot - Reselling Inventory Tracker (React, Gemini API)** | live demo
Built a web app that uses AI to extract product details from order screenshots and automatically tracks inventory, revenue, and profit across **50+ items**.
